

**LIVING WISE**

**To be good to the Earth**

**Others and yourself**

**To search**

**Not far**

**But near**

**For treasures on the shelf**

**To take some time to balance**

**Within your busy day**

**To send a note to a friend**

**Who may be far away.**

**It's only natural to seek**

**What nature has provided**

**Though at times it seems**

**Our worlds have collided.**

**So go and search your life**

**For the greatest prize**

**The peace of mind you gain**

**Comes from living wise.**
